Chief & Board,

I would like to propose the thought of purchasing a Department EZ up like the one in the attached e-mail below. My thought is it could be used for training, community events like the cadets trunk or trail event at collins lake, larger incidents for rehab or Incident command post. This would be a Department EZ up not meant for someone throwing a get together.

As you can see when you hit the "Review your 3D Mockup" tab it gets your attention and the backdrop is unique, a picture taken from a recent incident.

This would have been nice to have at the original Chute incident ICP as it was at the shooting range which had no shade. This could potentially be a good recruitment tool at events as well. We can change the picture if needed.

Just a thought,
Greg, 6402
