All

Today the new Drager SCBA's were placed into service. The only notable change in inventory is that 6481 will now only carry 3 SCBA packs and 4 SCBA spare bottles.

If you were not able to do the inservice training you will not be authorized to use an SCBA until you are able to get the attached form completed. Authorized signers for the form are Greg S., O. Stensler, Alex Y. and Roy Y. at this time.

Individuals who we show having attended the inservice training, M. Butler, G. Stensler, A. Craigmill, A. Young, R. Young, D. Sadlo, O. Stensler, B. Skaggs, J. Skaggs, M. Greene, and Scott Englehardt. If I missed anyone please contact me so I can update our records.

Once you have completed the form and have all signatures please take a photo of the form and email it to me. Then place the form into the Chiefs mailbox outside his door in the apparatus room. Chief will then keep a file for training and documentation purposes.

The RIC pack remains off the apparatus until further training can be completed with crews.

If you serve in a support roll, please get together with someone about the bottle change procedure as they have a quick disconnect. They no longer thread on and off.

If you have any questions please feel free to contact me.

Respectfully,  
Greg  
6402
