Chris Addiego emailed us on behalf of Emerald Cove Marina stating they are having issues with their address and are concerned if emergency services can find them easily. I created the attached letter for their use and am sending it to you, but I also noticed that their address number is not posted anywhere off Marysville Road, at least not as of October 2024 which is the last GoogleEarth street view. I did tell them that they should take care of that oversight as well. Let me know if you are aware of any problems that I might be able to help with regarding their concerns.

Thank you,

Kathy Gregg
