Greetings,

I wanted to bring to your attention an upcoming opportunity during the federal budget appropriations process. The U.S. House Appropriations Committee provides an opportunity for Members of Congress to submit a limited number of requests for funding directed to specified state, local government, or nonprofit recipients (subject to disclosure rules). It is important that you carefully review the submission instructions and take note of the March 5 & 13 deadlines.

On February 27 at 1 pm PT, we will host a virtual briefing to give an overview of the appropriations process and answer any questions you may have about community funded projects. If you would like to attend, please RSVP at this [link](#).

Please use the submission form available at the following link to submit a request - <https://kiley.house.gov/appropriations-requests>

If you have any questions, please reach out to James Zandstra (james.zandstra@mail.house.gov).

Best,

James Zandstra

Legislative Director
